

Patient Prescription Drug Assistance Programs

Free or low-cost medications provided by pharmaceutical companies

Some pharmaceutical companies offer medication assistance programs to low-income individuals and families. These programs typically require a doctor's consent and proof of financial status. They may also require that you have either no health insurance, or no prescription drug benefit through your health insurance. Please contact the pharmaceutical company directly for specific eligibility requirements and application information.

Note: Some of these companies may prefer to speak directly with your doctor.

Brand Name	Pharmaceutical Company	Program Phone #
